

HOLIDAY OUTREACH 2022

in partnership with the Washington University Medical Center (WUMC)

Without generous donors like you, many families in the St. Louis area would not have gifts to open this Christmas.

The Holiday Outreach Program is a community outreach initiative that gives participating departments at the School of Medicine, BJC, and others an opportunity to aid in WUMC's mission of stabilizing neighborhoods around the medical campus and to assist families in need.

The Department of Anesthesiology has adopted three local families and set a goal of raising \$10,000 to assist them with utilities, groceries, and more. 100% of donations will go towards helping participating families.
